

EXPERT'S CURRICULUM VITAE

Jacques GOUTALIER

Born on May 26th, 1950 in Lyon (69), French nationality

EDUCATIONAL BACKGROUND:

STUDIES IN SCIENCES UNIVERSITY OF LYON:

- 1972** - Bachelor's degree in science:
(Animal Physiology and Regulations Physiology certificates)
- 1973** - Master's degree in science:
(Biochemistry and Histology certificates)
- 1973 to 1977** - Doctorate student at the General and Comparative Physiology
Laboratory of the Lyon 1 University (Pr G. PERES)
- 1977** - PhD of Animal Physiology: « Evolution of cholesterol and erythrocyte
phospholipids in rats during heat exposure. Influence of a T4 administration. »

STUDIES IN MEDICINE UNIVERSITY OF LYON:

- 1976** - Master's degree in Virology, (Virus Biochemistry in the department of Human
Biology, Lyon 1 University).
- 1976 to 1978** - Researcher in the WHO Laboratory of Bacteriology-Virology
(Pr AYMARD); experimental research on haemolytic properties of some
viruses

PROFESSIONAL BACKGROUND:

- 1977 to 1979** - Biology teacher. La Bruyère school, (43) Saint Didier en Velay
- 1979-1980** - Scientific redactor for ASGO (91) Dourdan, documentation research and
synthesis on veterinary active ingredients, writing of expert reports on their
pharmacological, toxicological and clinical properties for Marketing
Authorisation dossiers
- 1981-2014** Co-founder and head manager of PHATOPHY, (69) Lyon, independent
Contract Research Organisation dedicated to the study of veterinary drugs in
animals and analytical services for development of new formulations. Study
Director for in life phases, writing dossiers for registration (MRLs, Marketing
Authorisation, Export, ...)

1988 - Pharmaco-toxicological Expert (J.O. February, 14th, 1988)

1989 - Licensed to experiment on living animals for zootechnical and medicinal veterinary research, effectiveness or safety studies of medicinal products, authorisations n° 00065 (1989), 006324 (1994), 006935 (1999), 6912741 (2006 and 2011)

2002 – Training Workshops :
Prediction in kinetics and metabolism, organised by the Group Metabolism and Pharmacokinetics, Paris (75), November,
Correlation in vitro/in vivo organised by the University R. Descartes, Paris V Paris (75), November

2004 – Training Workshop in Pharmacokinetics organised by the European Association for Veterinary Pharmacology and Toxicology, Wroclaw (Poland), September

2005 – Clinical Pharmacokinetics, organised by GMP, Toulouse (France), March
The Regulation of Veterinary Medicines in Europe, Barcelone (Spain), April

2007 – Biomarkers and Bioanalysis, organised by GMP, Giens (France), June

2009 – Metabolites identification in Safety Testing, organised by GMP, Paris (France), January

2013 – XXVIth European Days in Dermocosmetology, organised by CED, Lyon (France), February

Since January 2015, independent consultant for veterinary companies, medical device industry and biomaterial manufacturers. Analysis of Study Reports, Study Plans, Regulatory Affairs, Data research, Expertise dossier for AMM and export, contact with Authorities for new drugs development in the European Community, development of animal models for drug testing, medical devices for Humans, ...

Other activities :

- Biology teacher in a bilingual High School (Ombrosa, F-Caluire) 1996 – 2002
- Animal Physiology teacher for Veterinary and Human Drug Industry in association with the University Lyon 1 (FOCAL), since 2001
- Lecturer (Physiology and Pharmacokinetics, GLP and Study Direction) in the University Lyon 1 for the Professional Master of Physiology and Neurosciences, Bio-Experimentation, since its creation in 2004
- Member of the French Society of Toxicology
